

BRADY DUKART

Full Stack Software Engineer

SUMMARY

Full Stack Engineer with 8+ years of experience designing and building scalable web applications, APIs, and customer-facing platforms. Proven track record collaborating across engineering, product, and design teams to deliver high-quality software solutions. Skilled at writing clear, concise code that is easy to maintain and troubleshoot. Experience working with teams of varying sizes across multiple projects and companies. Able to work independently as a remote employee and travel to attend in-office sprints or conferences.

WORK EXPERIENCE

Full Stack Engineer (2023-Present)

Razor Consulting Solutions/Razor Tracking

- Architect and deliver new features for a fleet tracking and management platform used by thousands of customers
- Design and implement backend services, REST APIs, and database structures supporting mission-critical fleet management operations
- Lead end-to-end feature development, collaborating with stakeholders to translate business requirements into scalable technical solutions

Software Engineer II (2021-2023)

Software Engineer I (2019-2021)

Bushel

- Developed and enhanced customer-facing applications used by farmers to manage accounts, contracts, and business records
- Served as a primary contributor to the NextJS web portal, building scalable features with TypeScript, React, and Chakra UI
- Acted as a liaison between design and engineering teams, helping drive alignment on product requirements and user experience decisions
- Improved code quality and reliability through expanded automated testing and code review practices
- Partnered with backend engineers to optimize APIs and database interactions for performance and scalability

Web Developer (2018-2019)

Perficient

- Assisted in developing and maintaining enterprise-level client applications and websites utilizing Salesforce and Sitecore
- Developed CSS animations for highly optimized Google display ads
- Built a React-based event check-in application for Dreamforce and contributed to ongoing development of the company website

Web Developer (2017-2018)

Absolute Marketing Group

- Collaborated with project managers to re-architect multi-page websites for clients across a variety of technologies and service layers
- Assisted our team by setting up local WordPress instances for development
- Implemented strategic quality assurance methods to eliminate errors
